EDUCATION

University of British Columbia | Vancouver, BC

Bachelor's in Computer Science and Business | Expected Graduation: May 2027

Relevant Courses: Data Structures and Algorithms, Object-Oriented Programming in Java, Relational Databases, Computer Systems

SKILLS

Programming Languages: Java, Python, C/C++, Go, SQL, R, JavaScript, TypeScript, HTML, CSS

Backend & APIs: Node.js, Express.js, Flask, Gin, RESTful APIs, OAuth 2.0, JSON Web Token

Databases & Caching: PostgreSQL, MySQL, Redis, Firebase Firestore, AWS RDS, AWS ElastiCache

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, ElastiCache), Azure, Docker, Kubernetes, CI/CD, Git

Frontend & Tools: React, Tailwind, WordPress, Figma, Open CV, MediaPipe, JUnit5

Other: Agile/Scrum, Load Balancing, Kafka, API Gateway, VS Code, PyCharm, IntelliJ, Eclipse

Certification: Amazon Web Service Certified Cloud Practitioner

EXPERIENCE

University of British Columbia - CHI 2024 Publication | Vancouver, BC

Research Intern | May 2023 – Apr 2024

- Co-authored peer-reviewed paper "Lies, Deceit, and Hallucinations" accepted at CHI 2024 the premier international HCI conference.
- Assisted in literature reviews and user studies contributing to writing and revising the final manuscript systematically.
- Conducted in-depth analysis of 29 players' in-game behaviour and perception focusing on trust and deception dynamics.

UBC Sauder Commerce Undergraduate Society | Vancouver, BC

IT Director & Lead Software Developer | Apr 2023 – Apr 2024

IT Associate & Software Developer | Oct 2022 – Apr 2023

- Created new web pages and fixed bugs on CUS' 23 websites yielding a 25% increase on Lighthouse performance score.
- Advanced mobile user experience by reducing web page load time by 18% through removing unused **JavaScript** libraries.
- Provided IT assistance to 1000 active users of the CUS network boosting CUS' overall work efficiency by 15%.
- Followed **Agile/Scrum** methodology with sprint planning and retrospectives delivering features iteratively with feedback from stakeholders.

PROJECTS

JobMatch AI | TypeScript, Deno, Zypher, Groq, LLaMa, Tavily, RxJS, RESTful API

- Developed AI-powered job matching agent using Zypher framework analyzing resumes against job descriptions providing fit scores reliably.
- Implemented intelligent system that pre-filters 40+ job boards before **LLM** analysis reducing **API** costs by 70%+ significantly.
- Built **RESTful API** endpoints with error handling and multi-layer validation ensuring 100% system uptime under production workloads.
- Deployed on **AWS Lambda** with serverless architecture implementing auto-scaling achieving sub-200ms response time for queries.

Presently | React, JavaScript, Tailwind, Flask, Python, Open CV, MediaPipe, Express.js, Azure, OAuth 2.0, Firebase

- Developed award-winning app that assists presentations via speech analyzing and motion tracking winning Livepeer Best Overall Award.
- Implemented **Firebase** Authentication and Firestore services to store user data for enhanced security with **OAuth 2.0** integration.
- Integrated Livepeer **API** winning \$500 prize money by delivering real-time video processing with sub-100ms latency.
- Built backend with **Flask** and **Express.js** deployed on **Azure** achieving 99.9% uptime handling 5K+ concurrent users.
- Configured **CI/CD** pipeline with GitHub Actions automating testing and deployment to **Azure** reducing release cycles by 50%.

Scheduliii | React, TypeScript, PostgreSQL, Gin, Go, AWS, Docker, Redis, Google API, JWT

- Developed full-stack event-planning app with built-in user access to Google Calendar for easier event planning workflows.
- Utilized **AWS RDS** for **PostgreSQL** persistence and connected **AWS ElastiCache** to **Redis** improving query speed by 60%.
- Implemented Load Balancer for easier scaling and **JSON Web Token** for enhanced security measures protecting user sessions.
- Deployed on **AWS EC2** with **Docker** containers implementing **Kubernetes** orchestration achieving 98% uptime and horizontal scalability.
- Built **RESTful APIs** with **Gin** framework handling 10K+ requests daily with optimized database indexing reducing latency significantly.
- Integrated **Kafka** event streaming for real-time notifications achieving sub-100ms message propagation across distributed services.

EXTRA-CURRICULAR ACTIVITIES

Student Advisory Committee (COMM 202 Career Fundamentals) | Vancouver, BC

Team Coordinator | Feb 2023 – Apr 2023

- Led and participated in improvement process of COMM 202 coordinating teamwork of 6 members from diverse backgrounds.
- Presented summarized analysis of 100+ students' feedback identifying key areas for course improvement and curriculum enhancement.
